

A vertical strip on the right side of the slide contains a colorful, microscopic image of a nanowire. The nanowire is a thin, dark line that runs diagonally across the frame. The background is a vibrant, multi-colored pattern of orange, red, yellow, green, and blue, resembling a false-color scanning electron micrograph or a similar nanoscale visualization.

**Organic  
Nanomaterials for  
Electronics and  
Photonics**

**Preliminary Programme  
16 December 2011**

10:00 Welcome Address  
10:30 Keynote  
11:00 Project presentation

Organic Nanomaterials for Electronics and Photonics

**one-P Final Project Meeting**

16 December 2011

European Parliament, Brussels

[www.one-p.eu](http://www.one-p.eu)

Under the patronage of Philippe Lamberts  
Member of the European Parliament (Greens/EFA)

The research leading to these results has received funding from  
the European Community's Seventh Framework Programme (FP7/2007-2013)  
under grant agreement n° 212311 of the ONE-P project
